
For exquisite luxury

Here is a brand new proposal for your bedroom

A bedroom is a place where we spend a considerable period of time in our life. If we could better enjoy time of our own watching movies, reading books or simply sleeping, our lives would be greatly enriched.

This is why we developed the INTIME 7000 series beds.

INTIME is the electrical adjustable bed which will provide not only superior and comfortable sleep, but also ideal positions for relaxing while you are awake.

PARAMOUNT BED, being the top manufacturer of hospital and homecare beds in Japan, selected unsurpassed features and superior quality for the INTIME line.

Elegantly styled by celebrated Japanese designer, Motomi Kawakami,

the INTIME will become the centerpiece of your modern bedroom.

INTIME will enhance your quality of life.
